

YOU ARE INVITED TO THE

Ontario Apple Tour

**Tuesday,
July 29, 2014**

Lunch @ 11:30

Featuring:

High density orchards
Tall spindle and Super spindle
Trellis construction
New pesticides
IPM updates
Deer fencing
Labour saving technology
New cultivars
Irrigation and soil moisture

Please join us to network with apple growers and the OMAF+MRA Apple Team, to learn more about new technologies and growing methods used in apple orchards in the Georgian Bay district.

The afternoon tour by coach bus will visit 5 orchards in the Beaver Valley. Many growers have been planting high-density orchards and adapting new technologies to the cooler growing climate new Georgian Bay.

Thanks to our sponsors for our lunch and dinner at the Georgian Peaks Ski Resort.

Please RSVP to
